Re: case# 2013-00332

I am a resident of the Old Bridge neighborhood in Danville, KY. I wish to express my opposition to the announced intentions of AmeriGas to discontinue our current gas service and replace it with individual residential tanks. Our system is less than 6 years old and is performing well. We live in a restricted neighborhood and take a great deal of pride in our homes' esthetics.

It seems to me that common sense should prevail here. The proposed changes will have a negative effect on property values and will not increase efficiency. We all paid significant tap on fees to receive our current gas supply and it is wrong to disregard that in lieu of this new proposed system.

Bottom line, this neighborhood should not be penalized with increasing gas process for the benefit of the parent company.

Thank you for your consideration.
Respectfully,

Mary Ellen Barsotti
Old Bridge Resident
